

Dome Viewing Policy

The following document outlines the Milton Magic FC (MYSC) Dome Viewing Policy.

Milton Magic FC and Dome management are trying to address several concerns regarding the safety, logistics, and overall experience for both the players and parents during training sessions.

Main Concerns:

1. **Limited Space:** The available space for parents is insufficient, especially with the goals in place, leaving no room on the sideline.
2. **Safety and Emergency Evacuations:** In the event of an emergency, having too many parents in the dome would complicate evacuations.
3. **Non-Compliance:** Despite previous efforts, some parents have ignored instructions and positioned themselves in areas that disrupt the space or aren't allowed.
4. **Distractions:** Some parents stand on the field during training and engage in conversation, not paying attention to the session itself.
5. **Field Preservation:** Parents have been ignoring the "no food or drinks" policy, putting the new turf field at risk.
6. **Siblings on the Field:** Some siblings, without parental supervision, enter the field, which can cause distractions and safety concerns.
7. **Noise Levels:** Coaches have reported that the noise from parents disrupts their ability to communicate effectively with the players.
8. **Parking Safety:** With multiple teams using the dome, there have been instances of unsafe parking practices, including near-miss accidents.
9. **Pre-Established Communication:** Parents were informed about these expectations in recent meetings.

Exceptions to the Rule:

1. **CK Dome:** Parents are welcome to stay and watch on days with fewer scheduled programs, as advised by the club and when space permits.
2. **U8s:** Parents can stay with their children until a month after indoor training begins, to ensure comfort and safety.
3. **Exhibition Games:** Parents are welcome to attend and watch exhibition games inside the dome.

Conclusion:

The Club and Dome management are asking for parents' cooperation to ensure that the environment remains safe, efficient, and conducive to training. They're encouraging parents to embrace the shift towards allowing children to attend training sessions independently, like other sports.
